

LEADING THE SCIENTIFIC EXPLORATION

Dr. Claude Swanson

You've heard all of the stories and word of mouth evidence – but what can hard science tell us about unseen dimensions and an afterlife? Dr. Swanson will tell us all about cutting edge research that points to a “life force” energy that is used to create spiritual environments that marks the beginning of a scientific revolution. It is true - physics is now poised to lead us to a new paradigm of higher dimensional awareness and contact with spirit. Be part of this groundbreaking presentation!

Mark Boccuzzi

We know that things do go “bump in the night,” but what do qualified investigators have to tell us about such phenomena? The co-founder of The Windbridge Institute will fill us in on the “real story” of paranormal phenomena. If you have wondered about things like ghosts and apparitions, electronic voice phenomena, intuition and mind over matter – find out how such things are investigated under strictly controlled conditions, and what's real, and what's not!

Dr. Julie Beischel

Do “real” scientists actually study mediumship? You'll be surprised to learn of the extensive research of mediums, and even more surprised by the findings. There are precious few scientists in the world that have the dedication and perseverance in this field of study. Dr Beischel, a world renowned expert in this area, will explain why this science suggests an afterlife, how good mediums are chosen, and even let us all witness an experiment with Windbridge certified research mediums.

Paul Rademacher

Perhaps no organization has done more exploration of the mind and consciousness than the Monroe Institute. Since Robert Monroe introduced the world to out of body exploration, the Monroe Institute has become famous for teaching techniques that one can use for mental, emotional and spiritual experiences and growth. Author, lecturer, and Director of the Monroe Institute, Paul Rademacher will teach us all about our minds, as well as leading us in an exercise designed to open our minds to experience unseen dimensions.

Janet Mayer

As if being a former research medium at the University of Arizona were not enough, you will be treated to an experience that is “mind-boggling.” Janet, who suddenly woke up one day able to speak the ancient language of the Yanomami people, will keep us amazed as she speaks the language for us and relates the story of its evolution. Is this a case of reincarnation or channeling? – You be the judge!

PROVIDING THE LINK TO THE SPIRIT WORLD

Doreen Molloy, Janet Mayer, Debra Martin and Joanne Gerber are part of an elite group of mediums, and all are certified by Forever Family Foundation. Not only does the evidence show that these mediums are the “Real Deal,” but all have successfully participated in scientific research. Doreen, Debra and Joanne have committed a good portion of their valuable time to research conducted by The Windbridge Institute.
