

## Meet Bobbi Allison

While Bobbi Allison has been a practicing psychic medium for only five years, she describes visions and predictions that proved to be extremely accurate during her elementary school days. She recalls that she would sit at her desk and scope out the room before class even began, able to see which kids were going to be absent, and if they would be treated to a substitute teacher that day!

As is often the case when someone is born with such a “gift,” Bobbi took her abilities for granted, thinking everyone knew what she knew. Just like her grandmother who read tea leaves and Tarot Cards, her mother also has “The Gift.” Seemingly from her mother’s side of the family, Bobbi’s sisters are also able to see things before they happen.

When Bobbi finally accepted the fact that she was “chosen to help people,” she remained fearful about knowing what the future held. Once she realized that the information she received came from people’s loved ones who had crossed over to the other side, she made a deal with her guides: “Don’t give me any information that is not for the highest good of all concerned, such as forthcoming death, and I’ll deliver your messages.”

To this day, Bobbi conducts group sessions, private readings, and phone readings for those in need, delivering heartfelt messages to people in all walks of life. Bobbi resides in Long Island, New York and can be reached for consultation at 516-735-6152. Bobbi Allison recently became certified as a ***Forever Family Foundation Series A Medium***.
