

# MEET DEBRA MARTIN

As is the case with many mediums, Debra's natural gift of clairvoyance first occurred when she was an adolescent. However, she did not fully comprehend the magnitude of her gift until adulthood when she had the opportunity to work with Dr. Gary Schwartz, director of the VERITAS Research Program at the University of Arizona. It was there that Debra became an Integrative Research Medium and from where she has emerged as a much-respected Psychic Medium. Her participation in scientific afterlife studies has provided invaluable evidence to the researchers at the Laboratory for the Advancement of Consciousness Studies at the University.

Selected by the same laboratory to participate in an A&E network special, "Mediums: We See Dead People," Debra was then scheduled to appear in a second A&E special, "Psychic Children: Their Sixth Sense." The first special aired originally on October 14, 2005 and the second this past August 11, 2006.

Debra's main goal is to channel messages from the deceased to those left behind, thus assisting in the healing process and giving a sense of peace and comfort. Debra simply describes herself as a messenger who is a link between two worlds. She is a messenger who receives clear and understandable messages, bits of information, or significant images that are meant to be shared during a reading for specific loved ones.

Debra is able to hear voices, names, sounds, and music, meaning she is clairaudient. She can see symbols, spirits, people, scenes, objects, colors and sometimes even visions into a person's future, meaning she is clairvoyant. Debra can feel the spirit's feelings, emotions, and personality, meaning she is clairsentient. While not all mediums have all of these traits, Debra's multi-sensory communication skills help to enhance information received from those on the other side.

Debra is recognized by **Forever Family Foundation** as a certified medium, has appeared on **Signs of Life Radio** show, and devotes much of her time to many not-for-profit organizations. She has recently authored her first book, *Believe Beyond Seeing*, and she can be contacted via her website: [www.goldenmiracles.com](http://www.goldenmiracles.com).
