

MEET LYNN LeCLERE

In a phenomenon not uncommon among mediums, there is a history of psychic ability in Lynn LeClere's family. In fact, she is a third generation psychic medium, as her mother, father and each of their parents had psychic ability.

Lynn's mediumship began to surface at the age of five, shortly after the passing of her great grandmother, when she started receiving messages from those on the other side. Her gift started to intensify as she reached her high school years, and she started to put her abilities to practical use by reading close friends and family.

At the age of twenty five, Lynn came to the realization that her gift was given to her for a purpose and felt an obligation to help the bereaved full time. Being a single mother of three she recognizes that time is precious; in an effort to reach more people she often engages in small group readings and telephone sessions in addition to private sessions.

Lynn demonstrated her extraordinary abilities by successfully completing *Forever Family Foundation's Medium Certification Program*, and has consistently wowed audiences during demonstrations of her gift in spirit communication. She will be joining medium Doreen Molloy on December 15, 2007 at the Huntington Hilton in New York at the ***Forever Family Foundation's*** annual "Holidays Past" event.

Lynn can be reached by phone at 516-484-6049, via a link on the foundation website or by visiting www.lynnthespiritualmedium.com.
