

MEET JOANNE GERBER

In addition to being a psychic medium, Joanne Gerber is a spiritual teacher. She combines proficiency in providing evidence of an afterlife with trained therapy skills and is a member of the International Association of Counselors and Therapists and the American Board of Hypnotherapy.

Joanne describes her spirit communication as the ability to access dimensions that are separated by frequencies and vibration. Her keen interest in the scientific aspects of her work led her to become an Integrative Research Medium at a program at the University of Arizona that studied mediumship and survival of consciousness. Joanne plans to continue this work with other research facilities. She was also awarded mediumship certification by **Forever Family Foundation**, acknowledging her proficiency in spirit communication.

In addition to appearing as a guest speaker at various expositions, spiritual centers and colleges, she is a frequent guest on varied radio and television programs. Her work continues as a featured psychic medium for the Boston Globe newspaper online edition, boston.com.

Although she has become a very popular and sought after medium, Joanne often makes herself available to charitable causes and has frequently donated her time to **Forever Family Foundation**. She can be reached via her website www.joannegerber.com and via telephone at 781-883-5403.
